SUMMARY

Dedicated web developer with a strong foundation in both frontend and backend technologies. Proficient in HTML, CSS, JavaScript, and Next.js for creating responsive and dynamic user interfaces. Extensive experience in backend development, particularly with Sanity CMS, enabling the creation of powerful and flexible content management systems. Skilled in building full-stack applications including e-commerce platforms, rental systems, portfolios, and blog websites. Adept at leveraging Sanity's robust API and customizable content models to deliver scalable and efficient backend solutions. Strong problem-solving abilities, excellent communication skills in both English and Urdu, and a passion for creating seamless user experiences through integrated frontend and backend development.

PROJECTS

E-commerce Website

Built a full-featured e-commerce platform using Next.js and Sanity CMS. Implemented features including product catalog, shopping cart, and secure checkout process.

Portfolio & Blog Website

Created a responsive portfolio and blog website with dynamic content management using Sanity CMS.
